INTRODUCTION
TO
POLICE DEPARTMENT FACTUAL HISTORY

It was when I read through the handwritten Marysville Council Meeting books and Voter's Register books beginning 1891 that I was given a glimpse of our fair City at its beginning.

By the time the Town of Marysville was officially incorporated in March, 1891 it was a growing, thriving community of people who were seeking a better life for themselves, willing to endure the hardships and had the courage to persevere. There were men who had the foresight to see that there was a good future in this tiny development and wanted to make it a better community to live in. By the time of its incorporation in March 1891 there was not much control of gambling, fire arms, peddlers, prostitution or dogs. There were 75 registered voters in the first Voter's Register book and by 1892 there were 134 registered voters. Women were not on the voter's books until 1911. I think it is interesting to note who those first voters were and have listed them on the following page. A legal description of the town limits also follows.

To give you an idea of the locale of the Town of Marysville in 1891 the boundaries were from First (called Front) Street north to Ninth (called Nina) Street and mainly from State Street west to the Tulalip Indian Reservation. All of the main stores, two hotels, livery stable, barber shop and saloons were located on Front Street from State Avenue west to the Indian Reservation. The railroad tracks were then located past Ash Street. There were at least six saloons. One on Beach Street and Front Street was Bill Turner's saloon and on each side of the railroad tracks by Ash Street was Mayre's and Central Saloon. The Findump was on Front and Delta and across the street was the Block Saloon. On down the east end of that street was the First and Last Chance Saloon (so named as it was the first chance for a drink coming into town and the last chance for one when leaving).

The streets were of dirt and rocks. Dusty in summer and muddy in winter. There were no sidewalks except the wooden ones built by the business men in front of their property to cover the wells that had been dug every 20 or 30 feet that were used when fires occurred. The mills were across from Front Street on the south by Ebey Slough. At the far west end of the area south of Front Street by the Tulalip Indian Reservation was a dock and large warehouse for holding unloaded shipments from stern wheelers that brought in supplies.

I do not know the population of the Town of Marysville in March 1891 but the following are the first registed voters as they were handwritten.

Marysville Police Department and Reserves

Herman Broeker, chief of police at Marysville since Oct. 19, 1953, was formerly with the Illinois State Patrol and a director of traffic safety with a firm in Chicago. Later he conducted a driving school in Seattle for three years.

He set up a police reserve force in August, 1954, and it has functioned since then to the advantage of the citizens of Marysville.

In March, 1956, Broeker was honored for his long service with the boy scout program. He formery was an eagle scout and is presently scoutmaster for Troop 30 of Marysville.

James W. "Bud" Balam, another member of the force, began work wilth the local department in September, 1953, and was appointed to permanent status in April, 1955, relieving Hector Rochon.

Ole Strand, a veteran law officer, was a deputy for the former sheriff, Tom Warnock, in 1948. He joined the Marysville force in November, 1955.

In the top picture at left are shown Ptlmn. Strand, Balam and Chief Broeker.

MARYSVILLE POLICE DEPARTMENT, in 1904, was just one man . . . Marshal Sanford T. Asbery. A group of young ladies posed with him for a picture in the rustic setting that was typical of the time and place. At left, in the front row, is Myrtle Case, who became Mrs. Asbery.

NEW CITY PATROL CAR—Police chief Herman Broeker and patrolmen, "Bud" Balam and Ole Strand, are pictured beside the 1956 Ford sedan purchased through Park Sales and Service. Delivery of shiny green auto was made Friday. The patrolmen average about 100 miles a day, covering the city of Marysville all hours. Dear Chief Turner:

I am having a copy of this little booklet I did on display tomorrow for your open house. Sue Jensen had asked if the Historical Society would like to put up a display. We in the Society do not have any pictures of the Police Department through the years to show and I had been working on this for a time and finished it for tomorrow.

This is your copy to keep if you wish. Was fun doing it and wish I had more current names to enter in it etc, but went according to what was in the Council Meeting minutes.

Sincerely,

Jackie Jacobsen
